

## Having issues with your church streaming service?

**There are 2 main causes:**

### **1. Your Streaming Platform / Streaming Host**

- Many smaller streaming services crash and loose signal during peak service times.
- **Vimeo Livestream** is the only service with 99.999% uptime service.

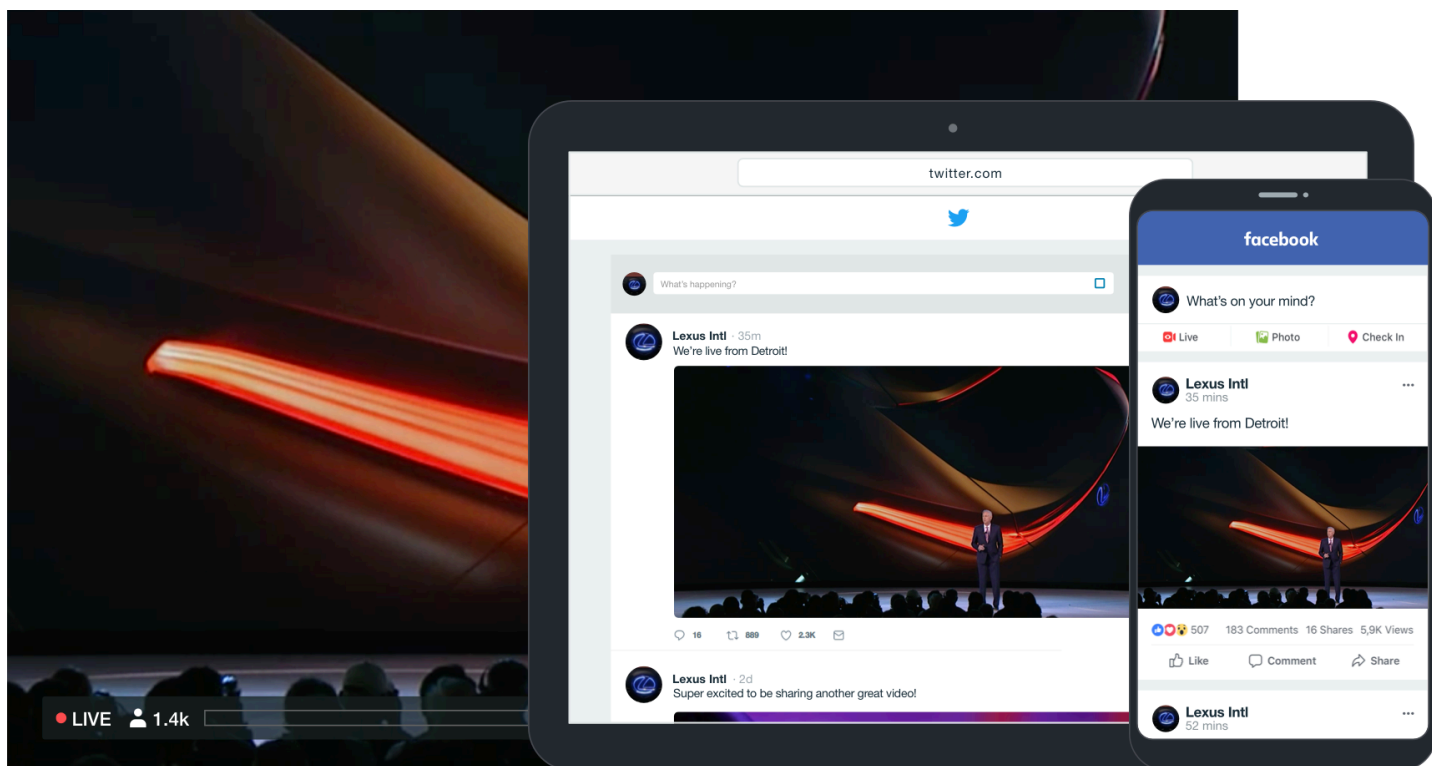

### **2. Your Personal Bandwidth/Wifi Signal**

- You need a good download signal of 5 Mbps
- Reduce the number of phone, Ipads, Smart TV's etc. on your network while you are live-streaming.

**\*60% of viewers are lost after just 2-3 minutes of downtime of live services.**

## Reach your congregation everywhere - without downtime

Simultaneously stream your live services via social media, embedded on your site, and anywhere else your audience is tuned in - all from Vimeo Worship. No added stress on your bandwidth(or on you).

## High quality. Any bandwidth.

Broadcast your live services with adaptive streaming, giving your viewers the best quality across devices even with limited bandwidth. With Vimeo Worship, your video is auto archived in up to 4k.

- Live video workflow consultations

### ❖ Earn Money

- Sell your videos directly to fans worldwide

## Frequently asked questions.

#### What else do I need to go live?

Besides your membership, you just need to connect to a camera and any RTMP-enabled encoder, which sends your live recording to Vimeo. We provide simple instructions and a professional support team if you need help.

#### Do I keep all my features when I switch to Premium?

Yes! You keep all of your features and videos, and your account will be upgraded to include the additional features and storage that comes with your Premium membership.

#### Are there really no streaming limits?

Vimeo Premium members get unlimited streaming in the Vimeo player to any number of viewers, across as many events as you'd like, with each event limited to 12 hours. No overages. No hidden fees.

#### Can I cancel anytime?

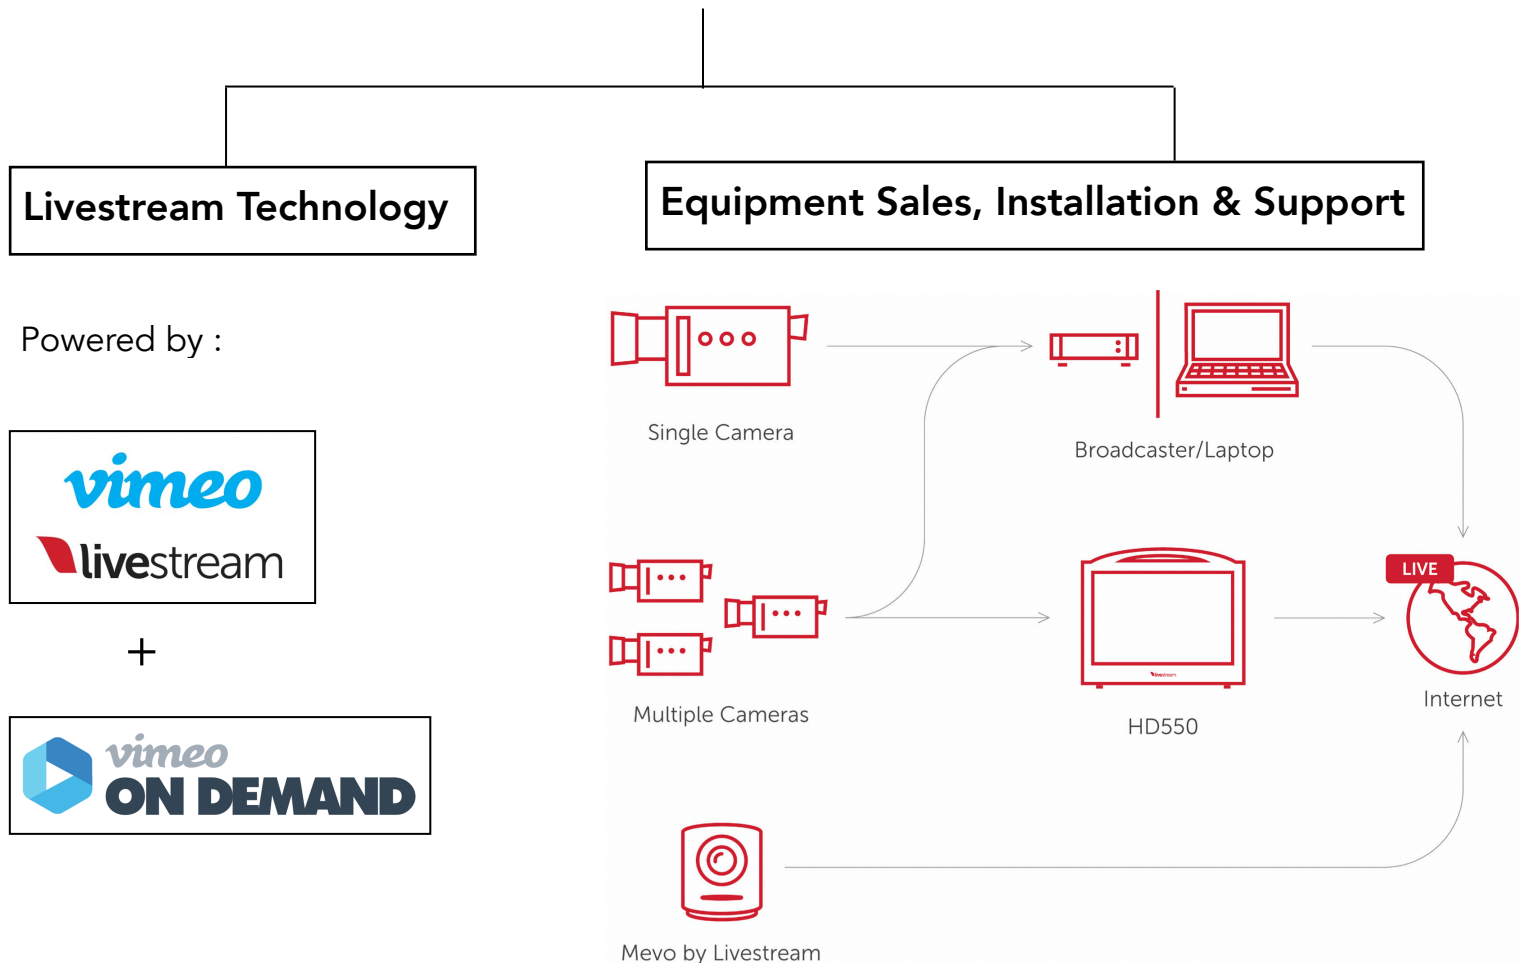

Yes, all our plans are risk-free. You'll get a full refund if you decide to cancel anytime within the first 30 days of an annual membership, or within the first five days of a monthly membership. If you no longer need the added benefits of your current membership, you can downgrade to another tier.
